Thieves and their Lawyers Out West.

Last fall a party of thieves stole a train on the Central Pacific Railroad, and loaded the express car, but were followed so closely that they were obliged to conceal a part of their booty in the mountainous regions west of Salt Lake City. The robbers were apprehended and brought to trial at Elko, where they secured the services of two lawyers to defend them. The agents of Wells, Fargo & Co. suspected that the accused might turn over some of the stolen property to the lawyers in payment for their professional services, and determined to keep a watch on the latter. The legal gentlemen started for the mountains, closely followed by detectives. When they had found and secured the hidden property, amounting to seven thousand dollars in value, they were apprehended and brought to Salt Lake City, where they were examined before Judge Hawley and bound over to appear at the District Court in the sum of \$5,000 each. The stolen property was returned to its owners.

Good for Frank Blair.

Frank Blair did a good thing the other day in the Senate Committee before whom testimony was being taken upon the condition of the South. One of these generic thieves and rascals, a hybridized Republican politician, was giving his testimony. "I understand you to say," said Gen. Blair, "that no Republican can live in safety in your section of the country." "The life of a Republican is not worth a straw there, sir," was the humble response. "Well," continued General Blair, "I observe that you are fat and happy. You don't seem to have suffered a great deal of anguish. It strikes me that about the best evidence that we can have that the South is docile and tractable is that such fellows as you can go down there and get back in safety."

The Joint High Commission have not got beyond the fishery question, and there does not seem to be much prospect for a satisfactory adjustment between the Canadians and our New England fishermen. It is understood that Colonel John Warren, who claims redress for imprisonment in England, has been informed that his memorial will be brought up for consideration whenever an opportunity presents itself.

On The War Path.

Senator Sumner on Monday, says the Statesman, made the Senate ring with his plain talk to President Grant, in course of the course of the administration in regard to the San Domingo job. The strange point of Mr. Sumner's speech was his arraignment of Grant for usurping the war power by authorizing our naval officers to commence hostilities against Hayti—a weak and defenseless power, yet one the President was bound on the score of that weakness, to treat with as much consideration as this nation extends to Russia, Germany or England.

Mr. Sumner boldly charges the President not only seizing the power solely confined to Congress, to make war, but accuses him of violating international law and the Constitution of the United States. These are not mere specifications, but are supported in their length and breadth by a formidable array of documentary evidence.

It is remarkable that the first strong indorsement of General Frank Blair's estimate of the usurping and imperial bent of the Grant mind should come from a Radical Senator, and that Senator should be Charles Sumner of Massachusetts. Of course this Sumner speech cannot remain unanswered, and we may expect lively times during the remainder of the session. Morton, Sherman, Chandler and the other thick-and-thin Administration members will be put to their trials.

"Ku Klux."

The Radical papers are filling their columns with marvelous "Ku Klux" romances, manufactured to order by hired scribblers. These Radical editors imagine that by stuffing their columns with this sort of nonsense, they can divert attention from the rascality of their party, and the quarrels among their leaders. The "Ku Klux" humbug didn't scare words a-cent in New Hampshire, nor will it scare any where else.

A number of Democratic papers have spoken favorably of W. J. Gordon, Esq., of Cleveland, as a suitable candidate for Auditor of State. Mr. Gordon is a sound Democrat, a successful and wealthy merchant, and is well qualified for the position of Auditor or any other State office; but we presume he has no aspirations in that way.

James M. Conly's paper, the Ohio State Journal, keeps up a "Ku Klux" column. James is Grant's Postmaster at Columbus, and he thinks this kind of literature will be pleasing in the sight of the great smokestack. Douglas (J. C.) of the Zanesville Courier, who is after the Zanesville Post-office, is doing up the "Ku Klux" business in such a way as will probably win at Washington.

Many politicians in Washington express the opinion that General John A. Logan will be the most formidable competitor General Grant will have for the Presidential nomination next year. The semi-political organization known as "The Grand Army of the Republic" which has its branches in every village of the North, and of which General Logan is a commander-in-chief, furnishes the nucleus of this movement.

Gov. Bullock of Georgia, has given a surprise to both his friends and enemies by appointing a Democratic judge in the Tallapoosa circuit. The vacancy was made by the Republican incumbent's election to Congress, and the Governor appointed the Democrat whom he defeated in the canvass for that position.

The Boston Advertiser says that there are nearly \$2,000,000 of Boston capital on deposit in New York at four per cent interest, and that it has been transferred there because Boston did not offer as good a chance for investment. It would seem from this that Boston has a surplus of cash for which it practically has no use.

Mr. Hadley, the new Governor of Arkansas, who succeeds Clayton, elected to the Senate, is a broken-down merchant, who took the benefit of the Bankrupt Law about three years ago. He is a corrupt, big game, and has only been in the State five years. The choice of such men by the bayonet is what is called reconstruction in the South. Have we not had about enough of it?

A Chicago detective made a bet a day or two ago that Foster was not the murderer of Nathan, and that he could write the names of three men, two of whom would be convicted of the crime within one year. He wrote three names on a slip of paper, which was enclosed in a sealed envelope and put in charge of a third person to await results.

A gentleman asked Mr. Greeley yesterday what was the greatest poultry-raising State, as he was anxious to engage in that branch of agriculture. Horace said that within the past two days he had come to the conclusion that New Hampshire was the most noted for raising poultry, as he couldn't pick up a paper from that State but was full of roosters.—N. Y. Democrat.

The Paper, the new Democratic organ at Pittsburgh, after a three months' brilliant existence, has given up the ghost. It reported that the proprietors sunk \$300,000, and having no inclination to dance longer to that kind of music, they let down the curtain.

One of the young students of the College at Delaware was seized, a few nights since, by his older fellow students, bucked and gagged, and otherwise mistreated by them. If this had happened down South it would furnish a capital precedent for a "Ku Klux" chapter.

Assault with intent to Murder, and the Suicide of the Murderer.

The fatal town of Hendryburg, in this county, was the scene of another desperate affair last week. And the same house was the scene of a short twelve-months' ago, the scene of a tragic murder, had its walls again besmeared with the blood of the murderer's victim. On Thursday afternoon last about four o'clock, Henry Yaus, who had a few weeks since been pardoned out of the Penitentiary, where he had been sent about a year ago for the murder of a young man whom he had shot down in his saloon, called to Moses Kline, who was passing by, to come in, and after some words about money matters between them, drew his revolver and shot Kline, the ball entering the left breast, and coming out under the left shoulder. He then turned and attempted to shoot his wife, but his arm being struck by his sister-in-law, the ball missed her. He then turned to his little son, "You and I will go to Heaven together," and leveled his pistol at him, but again was his arm knocked aside by the same person, and the ball took effect in the wall. He then remarked, "Now wait and you will see something," and placing the pistol to his own head, pulled the trigger and blew out his brains. He was buried the next day, the time of interment is expected to recover. It is thought by some that Yaus was deranged. He had been reading the Bible very attentively ever since his return from the penitentiary. By others it was thought jealousy. Another version is that Kline deceived him as to some money matters.—Saint Clairsville Gazette.

A Nail in Our Coffin.

The Age of Philadelphia, puts the case in the following compact form:

During the recent campaign in New Hampshire, Senator Patterson took open and avowed ground against the Baez scheme for annexing San Domingo to the United States. As said that Gen. Sherman informed him that to protect Dominica it would require a standing army of five thousand men, which would cost the country an annual expense of ten million dollars, and this would be a small part of the expense. The purchase money would amount to fifty million dollars; and, in addition to this, the heavy expense of building fortifications and guarding the seaboard. The inhabitants are ignorant, and while we would educate the world, our first duty would be to educate the Spaniards, and for it is only a few years since Spain sent forty thousand men there to suppress a rebellion, thirty thousand of whom found their graves, and Spain lost the country. France has tried to govern them, and lost forty thousand soldiers and millions of treasure. Is the prospect any brighter for the United States? Senator Patterson asserted that General Sherman had said, in a cabinet meeting, "this annexation would be the first nail in our coffin." It has already driven a nail in the coffin of the Grant administration by the result in New Hampshire.

Simon Cameron in 1862.

Here is an item of Simon Cameron's record which goes to prove his fitness to help the President with his San Domingo job. It is in the form of a resolution passed by the House of Representatives April 30, 1862, three months after Mr. Cameron resigned his seat in the Cabinet:

"Resolved, That Simon Cameron, late Secretary of War, by investing Alexander Cummings with the control of large sums of public money and authority to purchase military supplies without restriction, without requiring of him any guarantee for the faithful performance of his duties, among the services of competent public officers were available, and by involving the Government in a vast number of contracts with persons not legitimately engaged in the business pertaining to the subject matter of such contracts, especially in the purchase of arms for future delivery, has adopted a policy highly injurious to the public service, and deserves the censure of the House."

This resolution passed a body at that time almost two-thirds Republican, by the decisive vote of 79 to 45.

Tornado at Lebanon, Illinois.

The Lebanon, (Ill.) Chronicle gives an account of a terrible tornado which passed over a portion of St. Clair County last Tuesday night week. The storm passed half a mile east of Lebanon, and did great damage. Some twenty farmhouses were either blown from their foundations or entirely demolished, and out-buildings, fences and trees destroyed.

Miss Watson was instantly killed; Mr. Vermillion was instantly injured and his wife and child were expected to recover; Miss Vermillion's arm and legs were broken and she was otherwise injured, and is expected to live. Everybody present at that time were destroyed more or less hurt, several of them dangerously. Some houses, and also persons, were moved from one to two hundred yards, and trees two and three feet in diameter were blown like pine stems.

Horrible Accident.

The Bucyrus Forum says:

We are pained to learn that John Flick, (son of Abraham Flick, whose death was lately chronicled,) formerly of this county, was shot under peculiar circumstances a few days ago in Missouri, and is now lingering on the sick bed, and in a hopeless expectation of death. He was out hunting with some of his friends, and as is the custom with hunters on the frontier, secured a favorable place and commenced hunting a turkey for the purpose of attracting a dove of turkeys within range of his rifle. While in the act of calling, an old hunter who was deceived by the call, leveled his rifle at the supposed turkey, and fired. The ball struck Mr. Flick between the right lobe of the lung and the spine, in flight, probably a mortal wound.

A Portrait by Wendell Phillips.

"Every man knows that each Senator who voted for Mr. Sumner's removal did so solely because the President had let him down, and that only on that condition could he hope to have any influence at the Department in securing office for his friends." John Sherman, of Ohio, was one of the Senators who voted for Mr. Sumner's removal, and the account of the great radical leader, the Ohio Republican, was the plant tool of Grant and helped to slaughter Sumner, to secure presidential favors for his friends. He "Cooks the presidential dinner for the President." Where thrift will follow fasting?

A Democratic Record.

The New York Herald's Concord (N.H.) correspondent, giving an account of the Democratic rejoicing in that city says:

"A live rooster was one of the comical features on the platform, and just as the President of the meeting commenced his address, the huge bird advanced to the front, flapped its wings and gave a crow, which echoed again and again through the hall. The incident had the effect to produce round after round of applause, and the speakers all took occasion to allude to such a favorable omen for the cause of Democracy."

The Toledo Blade vigorously assails Grant for his persecution of Sumner, and asserts that "a great deal of defeat is now being inflicted before the Republican party, and it will require a good deal of vice effort and much plain speaking to avoid the evils which threaten us." It declares the Grant administration has disappointed the expectations of the party that elected it, and yet it adds, "to doubt its propriety is to be politically damned, so far as the malcontents of the White House can be made to go."

Dr. John Gegan, the eminent physician of the same place, who has given a recent visit to Dublin, left \$80,000 out of his estate of \$125,000 to Catholic charitable and religious associations in Philadelphia.

Bismarck enjoys the reputation of saying more witty things, with less effort, than any man in Germany. A correspondent, writing of him, says he is as ready as an American, bright as a French, and stinging as a Spaniard, in his conceits and epigrams.

The Chinese government has soothed the wrath of France for damages done to French property during the Tsin-Tsin disturbance by the payment of \$300,000, and the appointment of a Frenchman to the position of imperial interpreter, with a salary of \$15,000 per annum. These concessions are regarded as a full settlement of the claim.

POLITICAL.

The New York Independent, of this week, pledges its support, either to Sumner or Colfax, for President in 1872.

The Virginia Legislature, on Tuesday, elected John W. Johnston, conservative, United States Senator, by 108 to 55 over John R. Popham, the Republican nominee.

The Springfield Republican says the upshot of the recent Boston appointments by the President is that Gen. Butler, who is tired of his secondary position in Congress, has much to be said to run for Governor of Massachusetts next fall.

"The thirty-three Republicans who last week removed Mr. Sumner from his post, elected a Democratic President in 1872."—This is the language of M. Wendell Phillips in the National Standard.

The St. Anthony, Minn., Democrat nominates Jeremiah S. Black for President, and Allen G. Thurman for Vice in 1872.

Halstead of the Commercial, enters the celebrated gelling, Charles Sumner, for the Presidential race of 1872.

The Cincinnati Commercial says: Grant is a political necessity. He is played out, and must not be thought of as a candidate for re-election. The thing to do with him is to shove him upon a side track.

Senator Bayard made the proper motion when he moved to change the title of the committee of which Sumner is chairman from Foreign to Personal Relations.

Charles Sumner on Grant.

Charles Sumner has been interviewed by a New York Herald correspondent, says he spoke of the President as follows:

"What does Grant know? He doesn't know anything, sir. I do not accuse him of any kind of crime. He is not a man capable of understanding principles or of grasping anything in a comprehensive view. He does not understand the primary elements of the constitutional requirements of which Sumner knows in his bones. Put him on a horse and he'll blunder along somehow on the field. There's where his vocation ends."

We are paying \$125,000 annual interest upon the public debt of the United States. Of this Ohio pays about one-fourteenth part, or \$9,000. Each of our 1,271,000 voters is, therefore, charged with \$13 for his share. This is about equal to the sum which is required to keep a family in bread during the year. There is no doubt that to thousands of persons it involves the deprivation, to a considerable degree, of the food which they would otherwise consume. Shall this debt be funded, and its interest be paid in perpetuity drain upon the public resources? That is the question.—Enquirer.

Leavenworth must be a lively place for insects if the following be true, as it must be or it never would have found its way to the press.

A traveler was writing his name on the register of one of their hotels, when a bed bug took its way across the page. The man paused, remarked: "I've been bled by St. Joe fleas, bitten by Kansas city spiders, and interviewed by Fort Scott graybacks, but I'll be d—d if I was ever in a place before where the bed bugs looked over the hotel register to find out where your room was." And he easily gathered up his baggage and departed.

Gone Up.

A leading Republican journal, in view of the recent occurrences at Washington and New Hampshire, says that "the reform mission of the Republican party is pretty well ended."

We cannot disguise the existence of a crisis in the life of the party. It has lost its old power of appeal to the future, and an appeal to the past, in a Republic, is of no account."

Stand aside, good people, and let the coffin pass.

Jesse R. Grant, the father of the President, has not yet disclosed the name of the "wealthy gentleman" who offered him a bribe of \$500 if he would secure the appointment of Weithoff as Whisky Gauger. He is a case cured by drugs and whisky. Will not Uncle Jesse tell us?—Enquirer.

—A new Republican paper was started in Millersburg, Holmes county, a few months ago, and its editor now wants to be postmaster over there, which is not very pleasing to the Radical incumbent and his friends.

—We have received a kind invitation from our friend HENRY MITCHELL, Esq., to visit Newark, for the purpose of witnessing the inauguration of the Holly Water Works in that town on the 30th inst., but regret to say that a prior engagement about that time will prevent us from being present.

—We omitted last week making mention of the fact that we had a call from M. K. Kenton, Esq., the clever editor of the Success City Mirror. Mr. Kenton is a Mt. Vernon boy, having been born here, and learned the printing business in the BANNER office, under Mr. Dunbar's administration.

—Farmers should be on the lookout for patent-right swindlers during the spring and ensuing summer. Have nothing to do with them. If you need farming implements, purchase them of your town merchants.

—Our people were very much disappointed at not hearing Anna Dickinson lecture on last Friday evening. An important engagement with her business agent in Philadelphia, who is about leaving for Europe, required her immediate presence in that city.

—Everybody read the advertisement of Mr. J. Smith, Grocer, in this week's BANNER. He has refitted his store in handsome style and stocked it with the best assortment of Groceries the market affords. He is determined that all who give him a trial, will receive full satisfaction.

—Read the advertisement of Anderson & Fry, in another part of this paper. They have just fitted up a new Sash Factory, at the Works of C. & C. Cooper & Co., and having had large experience in this branch of business, they cannot fail to give satisfaction. Give them a call.

Two Maps of Knox County.

The indications are that we are going to have two maps of Knox County, when one good one might be made to answer all practical purposes. Mr. PHILIP NUNAN and Messrs. CALDWELL & STARR are busy at making surveys and drawings, and are pressing for subscribers, in the different townships. We have endeavored to get these gentlemen to unite their efforts, or for one party to sell out to the other; but their views are so wide apart, and their notions as to the value of the work done by each are so extravagant that it seems impossible for them to come together. Well, if we are to have two Maps, we hope they will both be good ones. If one is better than the other, the people will soon find it out, and they will patronize the best.

City Nominations.

On Thursday evening last, the delegates chosen at the so-called citizens' meetings, met at the Council and made the following nominations:—

Mayor—John Boyd.

Street Commissioners—James Wing.

We hear a good deal of complaint, especially among the friends of A. Mitchell, as to the trickery practiced by John Boyd and his friends in procuring the nomination. As to the charges made we have no knowledge, and shall not fret ourselves about them. Our "loyal" friends can settle that question among themselves. All we have to say is, we do not believe that John Boyd is the choice of a majority of the citizens of Mt. Vernon for any office.

Subscribing for Your County Paper.

The Pittsburgh Post thus speaks about the duty of the people to first become subscribers for their home paper, which we wish every Democrat in Knox County would read and act upon:

We frequently receive letters from our patrons, inquiring what newspaper we would recommend them to take, &c. Our advice is uniformly this: First subscribe for your county paper; if first of all others deserves your patronage, and should not be forgotten. Besides furnishing you with a continued chronicle of all local events of importance, it gives a character and standing to your county which is precisely in proportion to the flourishing or non-flourishing condition of your county paper, and which can never be attained without it.

It encourages home enterprise and talent and affords an honorable subsistence to worthy men, which not only looks after your home interest, but gives to the world a complete idea of all your natural and acquired advantages and business importance, and which invites foreign trade and capital.

Metallic Roofing Companies.

Mr. W. D. EWALT, of Liberty township, desires us to say that the Metallic Roofing Company of Cleveland, with which he has been dealing, has so far acted fairly and honorably with him, and is therefore not liable to be associated with some other concern, which have been swindling the people in counties of this State. Mr. EWALT is himself an upright and honest man, and would engage in no business that was liable to the slightest suspicion of being illegitimate.

Grand Concert.

We are pleased to be able to announce that the Grand Concert, under the conductors of Prof. Geo. W. Jackson, will be given at Woodward Hall, on Friday evening, April 7th. Prof. Jackson will be assisted by Miss Julia Parkes, Prof. Grebe, W. B. Russell, and the leading singers of the city. The programme of the concert, with particulars, will be published next week.

More New Type.

We have just received from our Type Foundry, Messrs. MacKellar, Smiths & Jordan, Philadelphia, a large assortment of the latest styles of card type, borders, cuts, flourishes, &c., which in addition to our former stock, gives us unsurpassed facilities for doing all kinds of first-class Printing. Give us a call when you want work done.

Full Moon.

The occurrence of full moons during the ensuing year is worthy of note. There is a full moon in the first seven months of the year. In July there will be two full moons; one on the 24th and one on the 31st. In the remaining five months, the moon will be at the full in the last day of each month.

Township Nominations.

Twenty Years Ago and Now.

C. M. KENTON, Esq., Editor of the Success City Mirror, made a recent visit to the "scenes of his childhood," and thus goes his impressions after an absence of twenty years:

MOUNT VERNON.—In returning from the Capital one day, last week, we concluded to pay the home of our boyhood, Mt. Vernon, a visit. We accordingly alighted from the cars on their arrival at the depot, and soon found ourselves walking up High Street; not the high street of twenty years ago only in locality, for we found instead, beautifully graded streets, substantial sidewalks and nice residences. We soon reached the public square, and were surprised to find that it had indeed been converted into what it was really intended. The old Court House, Market house and Jail have disappeared in the march of progression, and the Court House and Jail have been re-built in modern and enlarged forms; the former on East High, and the latter on East Chestnut street, both on the same lot, fronting these streets. Where once stood the old Kenyon House, now stands a mammoth brick block, occupied by that enterprising citizen, Adolph Wolff, as a Clothing establishment, on the first floor. fronting Main street, and the Post Office in the rear, fronting the public square, while the second story is occupied for various offices, and in the third story is found Wolff's Hall, one of the largest and best to be found in Central Ohio. Mr. Wolff, the proprietor, has exhibited much good taste and enterprise in this erecting so large and commodious a building. The first gentleman we met was Geo. E. Raymond, Esq., one of our playmates in childhood's happy hours. He greeted us with a warm shake of the hand. Mr. R. is President PRO TEM of the City Council; has an extensive talent in the western part of the city; has a large leather store on the south-west corner of the public square, and is a valuable and enterprising citizen.

We called in to see brother Harper of the BANNER, who we met at his post of duty. The BANNER is one of the best appointed country offices in the State. Everything in and about the office wears the appearance of good management and thrifty business.

We met many old and valued friends, among whom we might name Wm. Dunbar, Esq., Abel Hart, Jr., Milton Mills, W. B. Brown, Washington Stahl, Daniel McDowell, Sen., George Siler, Esq., L. H. Mitchell, and many others.

Mount Vernon is a beautiful city and contains many institutions of merit, of which we shall speak in a future article.

We are selling monuments at prices fully as low as before the war. We work the best Marble that money can buy. Those wanting Monumental Works are requested to write and learn prices, thereby saving from twenty to fifty dollars, which will surely pay for the time taken to write also, Slate and Iron Mantels at astonishingly low rates.

Vernon and the different Townships and Villages in the County, made from actual surveys, and exhibited to the most of the Assessors a year ago.
